## Interiors Scope

Pan American Charter School wanted an environment where children can learn and grow. Bellia introduced an array of colors for seating and multiple styles of tables for each classroom. The school was able to have a personality of its own while still maintaining consistency. With this concept, Bellia stepped away from the traditional desk and chair type classroom and moved towards a new, fun, and engaging environment.

- Classrooms
- Cafeteria
- Conference
- Computer Lab
- Hallway Seating
- Mail Area
- Science Labs
- Lounge Seating
- Secretarial Area
- Administrative Office
- Reception
- Library

## About Pan American

Pan American is a K through 8 charter school founded by Congreso in September 2008. Governed by a committed Board of Trustees, Pan American Academy provides high-quality education to over 700 students in eastern North Philadelphia. A vibrant community that is home to the city's largest concentration of Latinos, eastern North Philadelphia also faces many urban challenges. Congreso created a charter school that incorporated comprehensive supports into the educational model to help the community's vulnerable children excel in school and beyond. Pan American Academy Charter School is the first International Baccalaureate elementary school in Philadelphia.

*Love the space  
you are in*
